

SDA Compliance Tip of the Week

Front Rush/ACS to ARMS

The Compliance Office is making the transition from Front Rush/ACS to ARMS. SDA coaches, staff, and student-athletes will no longer have access to Front Rush/ACS after May 5. SDA coaches and staff will be required to start using ARMS for all compliance-related tasks (e.g., CARA logs, recruiting activities, forms, team management) on May 6.

Below are a few important items coaches and staff should know:

- Log into ARMS at <http://armssoftware.com> using your ASURITE and password.
- Coaches and staff should download the ARMS app from the Apple Store. Note: if you have never logged into ARMS before, you must first log in from a computer or phone web browser before you can log into the mobile app.
- Click [here](#) to watch an instructional video on how to log in to ARMS for the first time. A tutorial on how to log into the ARMS mobile app can be found [here](#).
- From May 6 through May 13, ARMS will upload most of the existing data from Front Rush/ACS (e.g., recruit activity, recruit information, calendar).

The Compliance Office will provide coaches and staff with more information and education regarding the specific features in ARMS over the next couple of weeks.
