## MARYLAND

The men's basketball director of operations provided:

- Technical basketball instruction (e.g., proper shooting form) to a student-athlete on approximately 10 occasions; and
- Tactical basketball instruction by reviewing upcoming opponents' scouting reports with student-athletes in the film room on approximately 8 occasions.

Both types of instruction caused the men's basketball staff to exceed coaching limitations.

- The women's basketball staff sent puzzles to approximately 150 prospects.

- The men's basketball staff also impermissibly set up an official visit in connection with a visit to a local community college. The staff worked with the Compliance Office, but did not provide all the necessary details regarding who was paying for the visit.

**What this means:**

- Prospects who are eligible to take unofficial visits may now visit campus any day during a road trip so long as all competition on a particular day has concluded.
- In addition, coaches who are recruiting off campus may now have contact with prospects (see Recruiting 101 tip sheet for off-campus contact rules and dates) so long as all competition on a particular day has concluded.
