EARLY ARRIVERS – POP QUIZ

**NCAA ALLOWABLE MOVE-IN DATES**

General rule, freshmen and transfers may arrive in the locale the day before:

- The first practice if a sport is in season, or
- Classes begin for a session (summer or regular term).

Note: Housing may allow any incoming student to move into the dorms earlier than the day before classes begin (check with Bill Kennedy). But recognize the person is still a prospect . . .

**PROSPECT → STUDENT-ATHLETE**

A prospect becomes a student-athlete when s/he:

- Enrolls and attends a class during a regular academic term (e.g., fall, spring),
- Enrolls and attends a class during a summer session,
- participates in a regular squad practice that occurs before the beginning of any term, or
- Reports to an institutional orientation session open to all incoming students within 14 calendar days from the start of a term.

**EARLY ARRIVERS**

Coaches and staff should tell a prospect when to arrive to campus, but if a prospect decides to move to the locale early, the prospect cannot:

- Receive anything from anyone associated with SDA
  - Meals
  - Snacks
  - Gear
  - Equipment
  - Transportation
  - Most facility usage
  - Etc, etc, etc
- Contact anyone off campus including student-athletes, noncoaching staff members, and boosters.

Note: Housing may allow any incoming student to move into the dorms earlier than the day before classes begin (check with Bill Kennedy). But recognize the person is still a prospect . . .
**EARLY ARRIVERS – MONITORING PLAN**

Coaches and staff must develop a monitoring plan in consultation with the Compliance Office.
